Rules of Conduct

None specified

Bootjack CWMU Description

The Boot Jack CWMU is located on the Promontory Mountains. The westside of the Unit is almost the shoreline of the Great Salt Lake at around **4200 feet**. From the westside to the eastside of the Unit, the elevation rises to a maximum of about **7200 feet** in the north and 6200 feet in the south. From these higher elevation the Unit drops faster to the eastside boundary at around 4200 feet, almost the Great Salt Lake shoreline. In an east-west direction, South Canyon, North Canyon, Miller Canyon, and Broadmouth Canyon all cut the unit.

The middle of the Boot Jack Cooperative Wildlife Management Unit (CWMU) is covered with Inter-Mountain Basins **Big Sagebrush Shrubland** (48). Surrounding the Sagebrush Shrublands are extensive areas of Great Basin **Pinyon-Juniper Woodland** (37). Along the western edge of the Unit are areas of **Invasive Annual Grassland** (121) and **Invasive Annual and Biennial Forbland** (122). There are areas of Inter-Mountain Basins **Semi-Desert Grassland** (76) and at drier locations, Great Basin Xeric **Mixed Sagebrush Shrubland** (48) and Inter-Mountain Basins **Greasewood Flat** (82).
